

SES Recovery Fee tables consider changing energy costs and continually increasing insurance rates in addition to greater environmental and regulatory complexity. Rates will be effective the first day of each new month and based on the prior month US national average diesel price, as indicated by the Department of Energy: <https://www.eia.gov/petroleum/gasdiesel/>

SES reserves the right to adjust the rate more often than monthly if market conditions warrant. The fee will be listed as an individual line item calculated on the invoice total, if applicable.

SES RECOVERY FEE TABLE - STANDARD		
NATIONAL AVERAGE DIESEL FUEL COST		RECOVERY FEE %
Average Price is	But Less Than	Total Invoice
Up to \$1.499		9.00%
\$1.500	\$1.599	9.25%
